

## 600 Mod Racer,

**Liquid Nitro, Xcel Chassis** have stepped up huge for the 2014 racing season to bring you the **Liquid Nitro 600 Mod Touring series**. This will be a 15 race touring series for **Xcel 600 mods** only. Each event will pay a minimum of \$300.00 to win and \$60.00 to start for licensed drivers. There will also be additional start money awarded to those drivers that attend all schedules tour races.

There will be a point fund paying the top ten spots with \$750.00 to the winner and \$100.00 to the 10<sup>th</sup> place finisher. The top 10 in points will be honored at the 2014 MTS awards banquet held on Dec 6<sup>th</sup> at the Riverport Inn & Suites. You must purchase a \$100.00 Series license to be eligible for the increased payout and series point fund.

Each Driver will be allowed to throw out their 3 worst shows. It can be just a bad night or a race you are unable to attend. We will not be making up any cancelled shows so the Series point winner will be determined by the highest point total based on the total number of shows run less the three lowest points nights.

Each series race winner will receive a trophy and a large winner's check compliments of Joe Signs.

All races will be held in Iowa or Wisconsin at one of the following (4) Tracks: Mississippi Thunder Speedway, Upper Iowa Speedway, West Union Speedway, and Cresco Speedway. Each race track will charge a \$30.00 entry fee per car for every Liquid Nitro Series race. All track promoters have collaborated to make this series possible and have agreed that only the track with a Liquid Nitro 600 Mod Series race will be allowed to run a 600 Mod race on that date. This means all 600 mod drivers will be able to compete in the series without sacrificing their local track points.

The series point fund and awards will be funded through a combination of funds from Liquid Nitro, other contingency sponsors, Series License sales, and 600 Mod series apparel sales. Success of the series will be largely contingent on participation. Our intension is to grow the payout and expand to more tracks for the 2015 race season.

In addition to the Series Point Fund, the 2014 Series Champion will receive a brand new Chassis with Interior & Body compliments of Doug Borger of Xcel Chassis!

Matt Bohl is the owner of Liquid Nitro and is a huge race ran. Matt is also involved with DLS Worldwide Freight Company, and is putting together a program for 600 Mod Drivers and the 600 Mod Touring Series to receive additional funds for freight referrals. This is an awesome opportunity for Series Point fund growth and for the series to support the sponsors that make it all possible. If you receive a call from someone representing DLS Worldwide please lend them your ear and see if you can help. It may mean extra money in your pocket!

600 Mod Driver Curt Luhmann has been appointed as the Series Director and will be the go to guy for all questions regarding the series. His contact information will be listed below. Curt has been one of the biggest supporters of the 600 mod class in the Midwest and has been responsible for much of the growth we have seen. Curt also has several used cars at all different price levels if you know anyone looking to join the class! There will also be a dedicated fulltime paid tech man at each every series race to ensure all competitors are legal. There will be a zero tolerance policy for anyone found to be illegal!

Enclosed you will find a series license application, Series Race Schedule, Series Rules & Regulations, and a sponsor decal placement diagram. There will be additional sponsor decals required, so this diagram will be updated as the season gets closer. The series will provide all decals.

We do have a website for the series [www.xcelchassiswest.com](http://www.xcelchassiswest.com). It is still under construction but will eventually be the go to site for all information about the series. In the mean time we will have a tab at [www.mississippithunder.com](http://www.mississippithunder.com) to view and down load series info until the new site is ready.

Please mail in your Series license application and check to 600 Mod Series, 32076 HWY 43 Rushford, MN 55971 and feel free to contact Curt Luhmann for any questions regarding the series. Curt Luhmann – Cell#507-450-5107 [dwarfracer@acegroup.cc](mailto:dwarfracer@acegroup.cc)

Looking forward to seeing you all at the track!
